# SUPPS & SURF

## RIDE THE WAVES

Stand-up paddleboarding has become incredibly popular all across the globe, and with a wide range of Hydro-Force™ boards to choose from, there's something for every consumer. Both beginners and experienced riders can have a summer full of exploration. The engineering team at Bestway® has crafted and fine-tuned each board, ranking them for overall maneuverability, tracking, stability and speed. Year after year, Hydro-Force continues to rule the lineup!

## BOARD WITH BENEFITS

Bestway's inflatable SUP line offers all the advantages that come along with hard boards, plus these added benefits:

- Easy to transport in a car or on a plane - a true money saver, as there is no need to purchase a roof rack or pay expensive shipping costs
- A great choice for beginners - the thicker material is generally more stable than a hard board
- Sold as a package deal - everything that's needed is included in one lightweight, grab-and-go carrier
- Bounce back ability - the flexible material is more resilient than a hard board

Advantages of ease and portability make an inflatable SUP the ultimate board, especially for beginners. Some models even come with a convenient kit to convert the paddleboard into a kayak, giving the user two options every time they cruise the open water. With a Hydro-Force SUP, anyone can have summer of adventures.

## STANDING UP UP ON YOUR BOARD

When you're new to the sport, it's best to start out in flat, calm water that's free of obstacles like boats and buoys. At first, you may find it easier to kneel on the board rather than to stand upright. Here are the steps to get you started:

- Standing alongside the board in shallow water, place your paddle across the deck of the board and use it as an outrigger. The paddle grip is on the rail (edge) of the board; the blade rests on the water.
- Hold the board by the rails. One hand will also be holding the paddle grip.
- Climb onto the board in a kneeling position, just behind the center point of the board.
- From that kneeling position, get a feel for the balance point of the board. The nose shouldn't pop up out of the water and the tail shouldn't dig in.
- Keep your hands on either side of the board to stabilize it.
- Once you're ready, stand up on the board one foot at a time. Place your feet where your knees were. You might also bring a friend to help stabilize the board as you get the hang of standing on it.

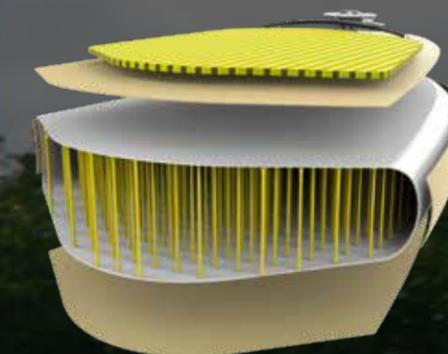

## TRITECH™ MATERIAL

Tritech, a 3-ply reinforced material with a polyester mesh core encased in two layers of laminated PVC that offers superior strength and durability. This premium marine grade material can withstand the most extreme nautical conditions including exposure to petroleum products and ultraviolet rays.

## DROP STITCH MATERIAL

To provide unmatched strength and durability, drop stitch material is a network of thousands of polyester threads. They securely connect the material surfaces internally, which seal in air to keep the board inflated and rigid, yet still lightweight. Drop stitch material can support considerable weight when inflated while still being easily portable when deflated.

STAND UP.  
STAND OUT.

## 12V AUTO-AIR ELECTRIC PUMP

65315/NA

NA = Four Languages

Size: 9 in. x 5.5 in. x 5 in. / 23.5 cm x 14 cm x 13 cm

### SPECIFICATIONS

Case Pack	Lb. (kg)	Packaging
3 pcs	9.7 lbs (4.4 kg)	Full color box

### CONTENTS

- One electric pump

### FEATURES

- DC 12V 110W car charger
- 9.8 ft. (3 m) long power cord
- Inflates stand-up paddleboards and other items with high pressure valves
- Easy-to-read LCD display with built-in preset pressure sensors
- Unit selection button switches between PSI and BAR
- Inflates from 0-16 PSI in just minutes with easy to use touch button controls
- Fully adjustable pressure settings (increments of 0.5 PSI)
- Automatic shut-off triggers when predetermined pressure is reached preventing over-inflation

## FIBERGLASS PADDLE

65307/E

Length: 85 in. / 2.17 m

### SPECIFICATIONS

Case Pack	Lb. (kg)	Packaging
3 sets	9.2 lbs (4.2 kg)	Polybag with header card

### CONTENTS

- One paddle blade  
- One T-bar handle

### FEATURES

- Adjustable paddle with 2 sections, the length can be adjusted from 66 in. (1.67 m) to 85 in. (2.17 m)
- Adjustable length options printed on paddle
- Single lock clip and snap fastener structure for easy adjustments
- Durable fiberglass shaft
- T-shaped comfortable handgrip
- Streamlined blade design provides efficient paddling

# BOATS

## ADVENTURE IS WAITING

Bestway's kayaks, rafts and boats are all uniquely designed with adventure in mind. From paddling to fishing to just floating along, this collection of boats promises a summer to remember! The wide range included in this line means every water explorer can find exactly what they're looking for. Plus, the thick, inflatable materials provide durability along with portability, make a Bestway boat the ultimate choice.

- 3 air chamber construction with high pressure inflatable keel
- Marine-grade plywood transom
- Inflated floor made from drop stitch material providing unparalleled strength and durability
- Metal steel tow rings
- Carry handles
- Quick inflation/deflation air valves
- Extra tough strake protects against impacts and friction
- Molded metal motor mount (Motor not included)
- Easy to assemble floorboards and bench seat - no tools needed
- Omni-directional oarlocks
- Safety grab ropes
- Integrated drain valve

## CONTENTS

- One boat
- One pair of 64 in. (1.62 m) aluminum oars that can be easily disassembled for convenient storage and transport
- One 14.5 in. (37 cm) Air Hammer™ inflation pump (#62086)
- One pressure gauge
- One durable carry bag
- One 33 ft. (10 m) tow rope
- Repair kit
